

**MARYLAND HISTORICAL TRUST
DETERMINATION OF ELIGIBILITY FORM**

NR Eligible: yes ☐ no ☐

Property Name: Building E5137 Inventory Number: HA-2094
Address: Edgewood Area, Aberdeen Proving Ground (APG) Historic district: ☐ yes ☒ no
City: Aberdeen Proving Ground Zip Code: 21010 County: Harford
USGS Quadrangle(s): Edgewood
Property Owner: US Army Garrison, APG Tax Account ID Number: _____
Tax Map Parcel Number(s): _____ Tax Map Number: _____
Project: Demolition of Building E5137 Agency: US Army Garrison, APG
Agency Prepared By: RC Goodwin & Associates
Preparer's Name: Katherine Grandine Date Prepared: 3/15/2006
Documentation is presented in: MIHP Form HA-2069 (Edgewood Arsenal Industrial Area)
Preparer's Eligibility Recommendation: _____ Eligibility recommended ☒ Eligibility not recommended
Criteria: ☐ A ☐ B ☐ C ☐ D Considerations: ☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G
Complete if the property is a contributing or non-contributing resource to a NR district/property
Name of the District/Property: _____
Inventory Number: _____ Eligible: ☐ yes Listed: ☐ yes
Site visit by MHT Staff ☐ yes ☒ no Name: _____ Date: _____

Description of Property and Justification: *(Please attach map and photo)*

Building E5137 was constructed in 1918 as a compressor house, a minor support building, to support the shell filling plants in the Edgewood Arsenal Industrial Area. Building E5137 was identified as "Historic" for purposes of a Section 106 review of the installation of an exterior door on the building in 1995. The undertaking was determined to have "no adverse effect on architectural resources" and the Maryland Historical Trust concurred in correspondence dated 16 February 1995.

Building E5137 is a utilitarian one-story building measuring approximately 35' (1 bay) by 103' (3 bays). Building construction commenced in February 1918 and was completed by March 1918 (Marshall and Ellicott 1919b: 143-144). The steel-frame building has ridged structural clay exterior walls and it rests on a concrete slab. The front-facing gable roof is sheathed with corrugated metal. The windows are metal-frame, one-over-one light replacement units. A single metal door and metal overhead roll door occupy the south (front) elevation.

Research conducted during the course of evaluating the Edgewood Arsenal Industrial Area (HA-2069) revealed no additional history about this building and its subsequent history. The building does not appear to possess the qualities of significance for individual listing on the NRHP for individual association (Criterion A), for significant persons (Criterion B), or for individual
